

APPLICATION FOR REMOTE CANDIDATURE

Remote candidature is available only for research postgraduate programmes, allowing students to conduct their studies away from campus, either locally or overseas.

New applications are reviewed by the Admission Committee (AC), while current students must obtain approval from the University Committee for Postgraduate Studies (UCPS).

REMOTE CANDIDATURE

A remote candidate may be permitted to proceed with his/her research outside from IIUM Campus by fulfilling the following conditions:

1. All English/Arabic language requirements must be fulfilled prior to applying for Remote Supervision. Alternatively, new students may be granted an exemption by submitting valid language proficiency certificates, such as TOEFL, IELTS, MUET, or other recognized equivalent qualifications. Failure to provide evidence of language proficiency may result in the rejection of the application.
2. Complete the course requirement i.e.: the Islamization and Integration course(s) and Research Methodology course after enrollment.
3. Applicant must be attached to a research institute, institution of higher learning, or an organization equipped with adequate research facilities, subject to the approval of the appointed supervisor and the Centre of Studies (CoS). For candidates in the fields of science and technology, securing a host institution is mandatory prior to applying for remote supervision.
4. Students are required to have regular communication with their supervisors. It is the student's responsibility to ensure access to reliable communication facilities.
5. If necessary, an external supervisor may be appointed from the higher education institution, research institute, or industry where the research will be conducted. The Centre of Studies (CoS) is responsible for ensuring that the external supervisor is informed of and complies with the University's rules and regulations.
6. International students are required to comply with all regulations set by the Malaysian Department of Immigration and the IIUM International Office.
7. International students must be covered by a locally purchased medical health insurance scheme (if required)
8. Applicant must obtain prior approval from their country's **Embassy** or **Ministry of Higher Education** before applying for the remote supervision mode of study. This is to ensure compliance with national regulations and to avoid any issues with the authorities upon graduation from IIUM.

I hereby acknowledge that I have read, understood, and agreed to comply with all the terms and conditions stated above.
